Walter Hull Sells 823 Acres Okeechobee Battle Warm Muck For \$617,677

A deed filed in the court house terday recorded sale of a tract of the most valuable muckland in the Everglades when Hull Packing Company of Pahokee sold 823.57 acres to The Holgate Company, Inc., a Florida Corporation. Sale price was \$617,677.50.

The tract consisted of "custard apple" land, locally thought to be the best and warmest farmland in the entire Glades area. The land is located in the Pahokee area in Sec-tions 29, 30, 31 and 32, Twp 42 South, Range 37 east.

Thurmond Knight, Riviera Beach Realtor, who handled the sale, said the price was figuerd at \$750.00 per acre. Mr. Knight has handled several other large sales in the Glades within the past few months. He is a former resident of Pahokee and is chairman of the board of public instruction of Palm Beach County.

County.

Mr. Hull is one of the area's most successful vegetable and cattle growers and recently bought and developed a large farming area southeast of Canal Point and will continue operating mainly in cattle and sugar cane in that area. Road Retread Job Sought For Glades

County Commissioner Paul Rar din, Canal Point, warned the county board this week that unless action is taken to get the state to resurface a section of SR 700, the highway will be impassable within

year. Rardin's warning was sounded at a special meeting of the Com-mission this week, when he told the board that the new State Road De-partment budget did not include retreading of the Glades road from the intersection of SR 700 and SR 717 (Muck City Road) for a dist-ance of seven miles east. The project had been put in prelimit budgets but was deleted from the final list of Palm Beach County projects in the State Road Board budget.

Commissioner Rardin said the "sugar boom" in the Glades has caused a step up in traffic over the road and that continued use of the roads present condition will event-ually make the highway impass abl

The board joined the Glades commissioner in instructions to County Engineer Steve Middleton, to con-tact the State Road Board immediately with a request that the budget be reconsidered and the Glades road project put back on the list of work projects.

Col. and Mrs. W. S. Evans returned to their home at Cypress Lodge, Port Mayaca, Tuesday from a weeks visit in Sarasota and Sebring. Flood Control In **New Road Effort**

County Commissioners this week are planning an inspection of pos-sible road facilities which if com-pleted will open up some 200 square miles of Glades farmland

The Central and South Florida Flood Control, in a letter to the commission, offered the board the use of an area located between the Miami Canal bank and the canal dike, as an access road into the new farm area. It would be the county's responsibility to maintain the berm road which extends some 20 miles into the farm area The commission decided that its

engineer and some members of the board, should survey the road site and cheek into what the project would cost before making a final committment.

In another action on roads, the in another action on roads, the commission approved a transfer of funds within the capital improvement budget. Mr. Fishler, Leader, Cordage Fibers Investigations, Everglades Experiment Station, who filled an assignment for the International Cooperation Administration in Colombia last year, discussed var-ious aspects of the conomy and politics of our South American Neighbor, He dwell at some learnth Neighbor. He dwelt at some length on the striking contracts to be seen between the old and the new. This was aptly illustrated by excellent was aptly inustrated by excellent kodachrome slides showing mod-ern automobiles, trucks and buses side-by-side with handcarts and horse-drawn wagons. The contrast of the old and new

The contrast of the old and new was also apparent in the various architectural forms shown in the slides. The skyline of the capitol at 10:30 p. m. city, Bogota (where the mean average temperature is 65 degrees the year-round), with its ultralmodern office buildings and apartiment houses, contrasted sharply with older parts of the city marked. with older parts of the city marked with the imprints of the Spanish conquistadors.

The beauty of the scenery The beauty of the scenery of Colombia was adequately illustrat-ed by Mr. Fishler. The lofty moun-tains of the great Andean cordil-era, which pass through Colom-bia as well as other countries on the west coast of South America, provided the usual quota of grand vistas, forests, waterfalls, streams, rivers and lakes.

Friends of Senior Ismael No. guera, who is well known in the Florida Everglades, were pleased to see slides of him and his family in Colombia.

Mr. Fishler, past president of the USDA Club, stated that ne was sent to Colombia to assist the Colombian government in the initiation of a kenaf production pro-gram. Fiber from kenaf, a plant belonging to the mallow or cotton family, is used in the manufacture of burlap bags for the transport of many agricultural products. He x-plained that the ultimate object-ive of the Colombian government is to become self-sufficient in the production of fiber and the manufacture of bags needed for agricultural export items.

Of course, Mr. Fishler, with his

usual wit, had to remind us all that the U. S. has its beauty spots also, and showed a few pictures of Oreg-on (guess where he is from), and a few other seeine places, winding up with a few shots of Cuba (before the beard), and a little black bear saying a prayer for Cuba to save it from the big red bear. The Bonds you own are better than ever, too

The new 3%% rate means your savings grow faster than before with U.S. Savings Bonds. \$3 becomes \$4,000 in just seven years, nine months. This applies to all Series E Bonds bought since June 1, 1959.

Then, all older Bonds, both Series E and H, pay more now—an extra 1/1% from June 1 on, when held to maturity.

And, all Series E Bonds carry a new 10-year extension privilege. This means your Bonds will keep earning liberal interest automatically after maturity.

These three new cash benefits make today's U.S. Savings Bonds the finest in history. They make the ones you own now better, too.

More advantages of U.S. Savings Bonds

You can save automatically. Just tell your company how much to deduct every payday for Bonds, and your Bonds will be delivered to you. This way you can't forget to save. And, remember, the money you don't touch can't slip through your fingers.

You can get your money, with interest, when you need it. Your Bonds are a ready reserve to use anytime you wish. But, it pays well to hold them.

Your savings can't be lost or stolen. The U.S. Government guarantees to replace your Bonds, free, if anything ever happens to them.

You save more than money. The Bonds you buy help keep the peace because peace costs money. Money for better education, new scientific research, greater military strength. Conner made his remarks at the Federation's Fifth Annual Short Course banquet, held at the University of Florida in Gainesville.

The short course serves as a planning session and annual convention for the group.

State May Go Into Waterway Business

TALLAHASSEE - The legisla ture is considering the idea of the state going into the waterway bus iness and making aggressive ef-forts for federal aid.

Two bills that passed the senate without debate would make way for this machinery. A house com-

mittee has already approved them.

One of the bills passed by the senate sets up a reorganization of the State Board of Conservation. This board started as a salt water fisheries department but has de-veloped into an organization that would be in five divisions under the reorganization: Administra tion, salt water fisheries, water re-sources and conservation, water-ways development and geology.

The other bill would set up a Florida canal authority which would implement the development of waterways such as the crossstate barge canal.

This bill would set up the ma-chinery for the state to obtain rights-of-way for canals with the leral government doing the act-

Right To Advertise Bill Is Introduced

TALLAHASSEE-A 'right to advertise" bill has been introduc-ed to the Florida Legislature. The bill seeks to prohibit state regula-tory boards from banning advertising.

Eliminating professional groups and boards comprised of cabinet officers and elected officials, the bill would disallow regulatory boards, such as the Florida Funer al Directors, from forcing associa tion members to refrain from ad-

vertising.

The funeral directors have such a regulation in force which has been bitterly opposed by news-papers, radio and television inter-

Florida East Coast Railway Seeks Authority to Purchase Seaboard Air Line Railroad

Between West Palm Beach and Homestead

The Florida East Coast Railway has requested, in its petition to the Interstate Commerce Commission, the imposition of a condition that would permit it to purchase that portion of the Seaboard Air Line Railroad south of West Palm Beach, should the Commission approve the Atlantic Coast Line-Seaboard merger. This proposal, if carried out, would:

- 1 Provide shipping public with faster and better freight service.
- Permit improvement in passenger train service with more frequent schedules.
- Promote industrial development for all communities served by the Florida East Coast Railway.
- Expand local railroad employment as a result of increased traffic.

How does he help keep an old American tradition alive?

SELF-reliance or the desire to "do-it-your-self" is an old American custom. Your hardware dealer is a big reason why this tradi-tion continues to thrive. He is constantly alert for new ways to help you fix that leaky faucet, the jammed lock, the broken window.

Service is his business. That's why your hardware dealer stocks literally thousands of items-so that he can serve you at moment's notice. And as your friend and neighbor he helps you in other ways, too. Whatever you decide to do yourself, paint, repair a lamp, clean the piping or shingle the roof, he's ready with sound advice for you.

And how rewarding for you if your hard-ware dealer gives you S&H Green Stamps.

Today, nearly half the families in America save them.

Your S&H Green Stamps make it possible for you to choose from over 1,500 topquality, famous brand-name items at your S&H Green Stamp Redemption Store.

THE MAN WHO KNOWS YOU BEST ... SERVES YOU BEST!

% interest n U.S. Savings Bonds

The Treasury explains why the new ones you buy and the ones you own now are better than ever

- Q: How does the new 33/4% interest rate benefit me?
- At With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to 21/2% for the first year and a half; then a guaranteed 4% each year to maturity.

- Q: When did the new rate become effective?
- A: June 1, 1959.

- Q: Does the new rate change the Bonds I bought be-
- fore June 1, 1959?

 A: All older E and H Bonds pay more now—an extra

 1/2 from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.
- Q: Will the Bonds I own automatically earn their new rate?
- A Yes. You don't need to do a thing-just hold on to your Bonds.
- Q: When my E Bonds mature, will they keep on earning interest?
- A: Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earn-ing interest after maturity.
- Q: With the new interest rate, should I cash in my old Bonds and buy new ones?
- A: No. The automatic 14% increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

 G: How are series H Bonds different from series E
- Bonds?
- A: The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

- check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people bold H Bonds and families saving for, say, a child's education, buy E Bonds.
- Q: In what denominations can I buy series E and series H Bonds?
- A: E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$19,000 (cost \$750.00).

 H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.
- Q: How safe are U.S. Savings Bonds?
- A: Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.
- Q: What if my Bonds should be lost, stolen or destroyed?
- A: You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.
- Q: Where can I buy Bonds?
- Q: Where can I buy Bonds?
 A: Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Fayroll Savings Plan where you work. This Plan means you can have any amount you name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.
- Q: How do I help strengthen America's peace power when I buy U.S. Savings Bonds?
- A: Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

Congress Lines Will Bring Battle

During the remaining days buring the remaining days of the present session of the legisla-ture, a fight will be made by var-ious counties to change the pro-posed boundary lines of the new congressional districts. Because of increase in population, Florida is entitled to four new seats in con-

gress.

A bill passed this week by the House and sent, to the Senate would radically change congressional boundary lines. Whether the Senate will accept the new bill is problematical.

Here are the districts with new
